Dear Valued Customer:

---

## ALLERGEN POLICY

---

Ozery Family Bakery is aware and concerned with the sensitivities that many individuals face in relation to specific food allergies. Our products do not contain peanuts, tree nuts or their by-products, nor are these permitted in our facility or on our production lines. We are proud to claim that all our products we produce are “Made in a peanut-free environment” and verified as such by a peanut-free audit on an annual basis.

We do have wheat in some of our products, which we declare on our packaging.

Other allergens such as: dairy, eggs, sesame, soybean, mustard, fish, crustacean, shellfish, sulfites, and others are not present in any of our products, nor in our facility.

Our Allergen Management Program is comprised of supplier approval and risk analysis, updated written work procedures, inspections, team members training, color-coding of tools and utensils; segregation of lines and utensils, labeling and allergen declarations on product packaging.

Ozery Family Bakery is a BRC (British Retail Consortium) accredited facility. Our comprehensive Allergen Control Program is verified independently against the Global Food Safety Initiative Standards, annually. This provides increased confidence in the effectiveness of our Allergen Management Program.

Sincerely,  
Ozery Family Bakery

A handwritten signature in black ink that reads "Pooja Khanna". The signature is written in a cursive style with a horizontal line underneath the name.
